

Instead of saying, "You're an other," the Advertiser would display more dignity by attempting to refute the charge of fakism against the Chronicle and United Press correspondences.

Ka Leo o ka Lahui is well pleasing in the sight of the Advertiser. It is the first contemporary of the Advertiser which has ever started with the heavy handicap of the Advertiser's approval. Sympathy is cordially extended.

#### A FACTITIOUS THEORY.

An editorial paragraph on Restoration Day in this morning's Advertiser contains the following remarks: "The restoration of the flag was simply the undoing of an act of flagrant usurpation, for which no justification was ever pretended. At the same time, if the zeal of Admiral Thomas had not outrun the Home Government, the flag would undoubtedly never have been restored." This presentation of history is a recent invention made for a purpose. Documentary evidence contains not a shadow of ground for it. Admiral Thomas did not outrun the Home Government excepting corporally. In the declaration of views repudiatory of the action by Kamehameha III. of the islands to Lord George Paulet, acting in the name of the British Government, Admiral Thomas was not a moment ahead of the Home Government. The declaration given on board Her Britannic Majesty's ship Dublin, at Honolulu, on July 31, 1843, begins with these words: "Immediately that the commander-in-chief was made acquainted in Valparaiso in June, 1843, of the provisional cession of the Hawaiian Islands unto the Right Honorable Lord George Paulet, as the then and there representative of Her Majesty, Queen Victoria, he hastened to the spot to make himself fully acquainted with all the circumstances and, if possible, the motives which led to such an unlooked-for event." Admiral Thomas had arrived at Honolulu from Valparaiso on June 25. At Washington the day before, June 25, H. S. Fox, representing the British Government, in a communication to the United States Government made the following statement: "Her Majesty's Government, previously to the departure from England of the last steam packet, had already received information, though not officially, of the provisional occupation of the Sandwich Islands, in the name of Great Britain, by the officer commanding Her Majesty's ship Carysfort. I am directed by the Earl of Aberdeen to state to you, for the information of the Government of the United States, that the occupation of the Sandwich Islands was an act entirely unauthorized by Her Majesty's Government, and that with the least practicable delay due inquiry will be made into the proceedings which led to it." This proves that, before the British Government could have received information of the expedition of inquiry undertaken by Admiral Thomas, the British Government had disavowed the action to it of these islands and determined to promptly institute an inquiry into the matter.

#### REPEATING OF HER BARGAIN.

Senator Morgan made a speech in the Senate on Hawaiian affairs on July 3, which the Star quotes from at length. As the speaker was one of the first Senators to declare himself publicly for annexation, some of his utterances in this speech are of peculiar interest. Speaking of the favorable reports on the cost of opening Pearl Harbor for deep-sea vessels, which it had been stated, as he said, on the floor of the Senate time and again would be \$700,000, Senator Morgan said:

It turns out that it will take less than \$700,000 to do it; and Hawaii is repaying of her bargain that ever she gave up a harbor which she is perfectly able to dredge herself to the United States in consideration of this reciprocity. She is repaying of it. If I were an Hawaiian I would report it of worse than she does, for if I were an Hawaiian I never would claim annexation to the United States—never.

Senator Morgan is replying to Mr. Mills of Texas, who apparently had advocated coercing Hawaii into annexation by cutting off the advantages of reciprocity, and this is how he concludes:

I would make Hawaii the Switzerland in the Pacific Ocean, what Switzerland is in Europe, protected by all the nations of the earth, perfectly able to take care of herself under all circumstances and the heaviest population that can go there. I would take that little republic that has now been built up into perfectness and beauty, without the shedding of a drop of blood, by American genius, skill and states-

manship and moral courage and I would build in that Pacific Ocean, as I say again, a Switzerland protected by all the nations of the earth. But Hawaii wants to come to us, and there are gentlemen here who want her, some by inducing her to come and some by starving her into coming. The Senator from Texas seems to want to starve her into coming.

To keep Hawaii an independent state—a sort of buffer against the land-grabbing propensities of the great powers—had been for many years up to 1893, in the view of most of our wisest people, the most desirable fixed status of the country. Many of those who went headlong into the Stevens-Thurston scheme of annexation are ready to confess even now that independence, if it were possible, was the very best condition of the islands. Mr. Morgan chooses to say, without any tangible authority, that Hawaii wants to go to the United States. He and those in Congress who think like him ought to have sufficient confidence in their opinion to advocate and insist upon a free and fair chance for the people of the Hawaiian Islands to determine for themselves their future national condition and form of government.

#### Hood's and Only Hood's.

Hood's Sarsaparilla is carefully prepared from Sarsaparilla, Dandelion, Mandrake, Dock, Pipsissewa, Juniper berries and other well known remedies, by a peculiar combination, proportion and process, giving to Hood's Sarsaparilla curative powers not possessed by other medicines. It effects remarkable cures when other preparations fail.

Hood's Pills cure biliousness.

#### LADIES' COLUMN.

The shoe dealers must be doing a good business, judging from the amount of Hosiery we are selling, for nearly all the barefeet in town have taken advantage of our stock and prices, while there is a suspicion that the more extensive buyers intend to lay in a stock for future use—it's all right, we bought them to sell and knew you could not resist the temptation. Saturday, Aug. 4th, we will make another run on Hosiery and will include some for hubby—Fast Black Socks—that he is foolish enough to pay \$3 a dozen for; you can make pin money by buying them of us at \$2 a dozen, and get yourself a supply of Tan Colored Hosiery to match your pretty little tan boots—they will please him as well as yourself; and talking about pleasing, more comfort and smiles have found their birthplace in P. D. Corsets, than wearers of other corsets are aware of. Did you ever try them? If not do so by all means—in the meantime fit the little one and yourself out with some of the following: Compromise Bodice Waists, Equipise Ladies' Waists, Jeaness Miller Waists, Children's Double Ve Waists in Summer and Winter weights, Children's Lo g Cashmere Coats, these goods will receive an awful cut. Another thing let us say, there is no use fixing yourself up unless you do the home. Tinsore Draperies for curtains and Divans make a room more cheerful than it would without them—and yet if we were to quote you the price her you will say, "Oh, well, Eblers is selling them so cheap, everybody will have them," to which we say, Yes, the first come will, for the stock is limited. Double Width Serges, all wool, go at 50 cents a yard this week.

#### Hawaiian Hardware Co., Ltd.

Saturday, July 28, 1894.

There is a hole out near the government quarry at Kamoiliili containing an inexhaustible supply of pure sparkling fluid, sufficient to meet the demands of all Honolulu. The water has recently been analyzed and shows

Sulphuric acid . . . . . 33  
App. . . . . 30  
Lime . . . . . 07  
Magnesia . . . . . 1  
O. P. S. . . . . 1

It will be seen at a glance that this is a much higher grade of water than we are now getting from either Nuuanu or Makiki, and we believe the government could take no wiser course than to run pipes from the pool to the city mains only a mile distant. A pumping plant at the spring would force the water in all directions between Kamoiliili and Waikiki, and the expense would be insignificant compared with the benefits derived by the public.

If this is a charitable government it will be done if for no other reason than to relieve the Superintendent of the Water Works of the severe mental strain caused by his attempt to figure out a way to give the people more water and less earth. An abundance of water might also have an effect upon the rose bugs in so far as it might drown the larvae which may be found around the roots of the bushes. We are making these suggestions without consulting the owner of the water, but we believe it will meet with his approval, as he is a man with philanthropic motives.

For a consideration we believe he can be approached and an arrangement entered into whereby all water difficulties could be obviated. Some time would, of course, be necessary to complete the plant and means should be devised to supply individuals with what ever water they wish. We have tried everything from a straw to a Corliss Engine in lifting fluids but nothing works better, or can be run with less expense than an A-motor. You just erect the mill and give it a dose of oil occasionally and let her pump. We have small ones that will answer admirably for irrigating lots up to five acres; we have others that will pump ten thousand gallons of water an hour, sufficient to irrigate a rice plantation.

The "Pansy" is king of all iron cook stoves. For good baking and little fuel there is no other like it. We could figure up where we have sold a couple of thousand of these stoves but cannot find a single complaint from our customers. You can get other stoves, lots of them, but what's the use of investing your money in an article you know nothing about. A stove is something you have to live with three hundred and sixty-five days in the year, and it's something you want to be on pretty good terms with. You can't be if it will not bake or if it burns too much coal; if the upper crust on your pie or cake is burnt to a crisp and the lower one under done some one is going to kick and it won't be the stove.

Our stock of cheap lamps mentioned last week is worth looking into. We have opened all of the casks and put some of the goods where they can be seen by the people. When once examined they are as good as gone because they are cheap. In these times when people's imagination drifts toward poverty low priced goods are needed. We have other lamps to suit the masses not afflicted with flattened purses. We have them for both classes here because we cater to the public, irrespective of party, creed or present condition of finances.

#### Personally Conducted Excursion to the Volcano now being Organized by Frank L. Hoogs.

Leaving on the Next Trip of the S. S. "Kinan," FRIDAY, August 3d, Returning to Port on SATURDAY, August 11th.

There are a great many people in Honolulu who require a vacation in order to get away from business and other cares that infest this work-a-day life. For their benefit it may be mentioned that a Select Excursion is now being organized to visit the domains of Madame Pele, sometimes known as the Volcano of Kilauea. It doesn't make any difference if they have been there before, because if they have, they will readily admit that the crater is constantly changing and with each change renewed interest is awakened. Hon. L. A. Thurston gave a description of the Volcano's latest mood, and if you have not read it do so at once and then walk as far as WILDER'S STEAMSHIP OFFICE and purchase a Ticket for the Excursion leaving here on FRIDAY, August 3d. To people who do not require a vacation they must make the trip anyway if only to say that they have seen the World's Greatest Wonder. It is certainly embarrassing for people who have lived in this country for years to give a negative response when asked if they have seen the Volcano. They may have had some excuse in the past for their seeming indifference because it required more or less exertion to reach the crater, but now they can ride in a carriage to the door of the Volcano House. The crater is very active now, it may not remain so very long, so join the Excursion Party and see a sight that strangers travel thousands of miles to see. The cost of the trip will be FIFTY (\$50) DOLLARS, which includes everything. 1099-71

ORDWAY & PORTER, Leading Furniture Dealers of the Hawaiian Islands.

Johnson Block, between Fort and Nuuanu, right hand side of Hotel street going west.
